

Rugged Reliability

Are the keyboards used at the point of sale as tough and fast moving as the products you sell?

- 30 Million actuations guaranteed
- IP54 rated keypad is dust & spill resistant
- No springs under keys to wear

Maximum Configurability

Are your designs being compromised by less than adequate keyboards?

- Footprint optimized by only including the modules you need
 - One cable instead of 5; MSR, Touch pad, keyboard, keylock and Smart Card Reader
- Custom configurations for unique applications are our specialty
- Keyboard housing can include your logo or your customer's logo

Designed specifically for heavy use applications, MCI 128 keyboards continue to perform long after others have failed. PrehKeyTec is so confident of the quality and durability of our German engineering, that a three-year warranty is standard on every unit.

Available in both Row & Column and an Alpha layout, MCI 128 keyboards optimize a small footprint by only including the integrated options needed. This efficient design, and the completely programmable layout give you everything you need - and nothing that you don't.

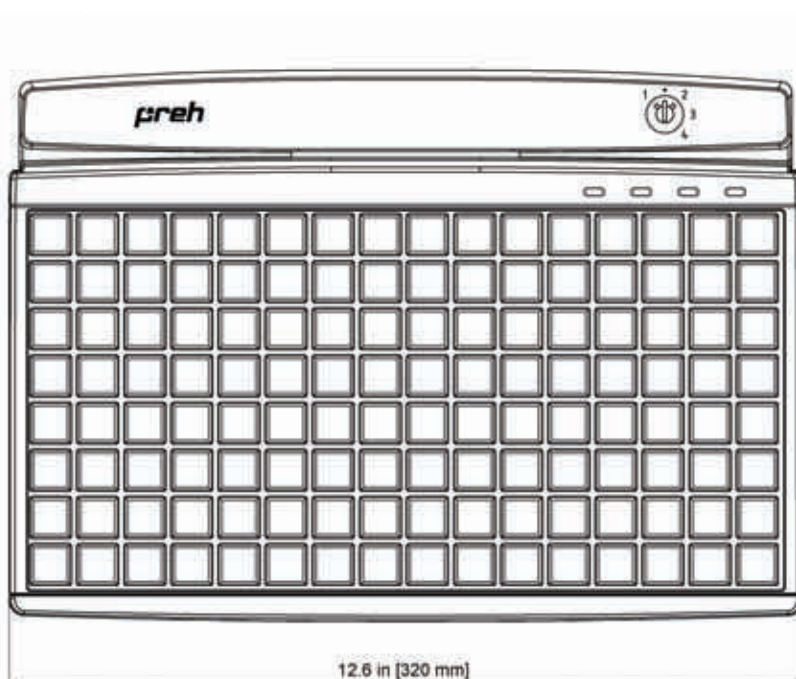

Stuck keys - impossible
Ugly equipment - gone
Learning curves - shorter
Counter space - increased
Down Lanes - rarely
Cable management - simplified
Store image - reinforced
